

Experience

Amazon – United Kingdom

Tech Lead & Senior Software Engineer – Prime Video

02/2022 – present

- Served as tech lead for a 15-person team of Software Engineers and Applied Scientists, defining roadmap, long-term strategy, and architectural direction
- Led the design and implementation of a large-scale AI system automating the resolution of oncall tickets across all of Prime Video
- Automated root cause analysis for 43% of all high-severity Prime Video incidents, saving 85 headcount annually
- Collaborated with multiple Amazon-wide organizations to integrate AI-based incident automation capabilities into shared operational tooling, expanding coverage and accelerating adoption across the company
- Presented technical strategy and progress updates to senior leadership, influencing roadmap and resourcing decisions
- Delivered technical presentations to live audiences of 500+ people at company events in multiple countries
- Recorded Agentic AI trainings, shared across Prime Video and consulted by 800+ engineers
- Mentored mid-level and junior Software Engineers, supporting their technical growth and career advancement, including multiple promotions

Software Engineer II – Transportation Execution

04/2018 – 02/2022

- Designed and implemented multiple large-scale process automation projects, leading to MM\$ in savings and hundreds of hours of manual work saved each month
- Developed a framework for embedding BI reporting tools on the team's platform, leading to a reduction of 95% in time needed for the creation of BI reports
- Designed and developed an authorization framework for use across the team
- Led the development of multiple cross-organizations projects by supervizing other development teams

General Electric Healthcare – France

04/2016 – 01/2017

R&D Software development intern

Ionis Education Group – France

01/2015 – 07/2015

Teaching assistant

Education

Bachelor and Master of Computer Science

2013 – 2018

Epitech, Paris Graduate School of Digital Innovation, France

Master of Management Science – Project Management

2017 – 2018

Université de Haute-Alsace, France

Study Abroad – Computer Science

01/2017 – 08/2017

California State University San Marcos, CA, United States

Skills
